## FAQ

### 1. Login failed

- a) Mobile Phone Network
  1. Setting the access point is cmnet in China mobile network ( Windows Mobile System: Network Management→Connect Internet automatic: select cmnet→Connect Special network automatic: select cmnet
  2. try to visit one website ( eg.: [www.baidu.com](http://www.baidu.com)), test whether the network is ok.
- b) DVR Network  
Login DVR via WEB client of PC, test whether DVR network is ok.
- c) Excluded above, please check your mobile phone whether it is supported by DVR.

### 2. Video request failed

- a) Ensure the DVR support extra stream, and enable extra stream video
- b) Exclude above, please check your mobile phone whether it is supported by DVR.

### 3. Symbain software can't work

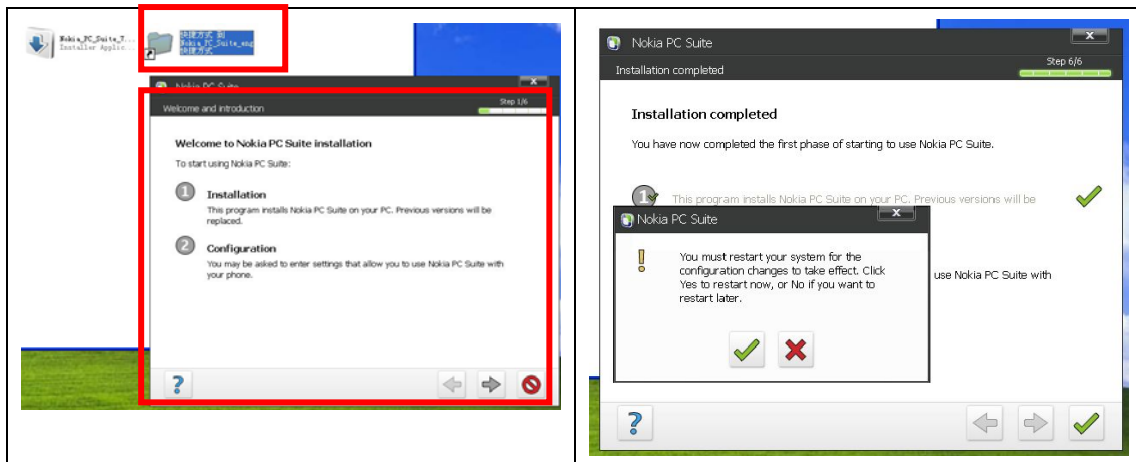

1). After installing the symbain software, it can't work, or software can't install, please install three patches as ~~xxxx~~below:

- a) glib.sis
- b) pips\_nokia\_1\_3\_SS.sis
- c) stdcpp.sis

2). After installing patches, the software can't run, it must format the mobile phone. In general, it appear the platform of Nokia mobile phone is S60 3rd Edition, Feature Pack1. The operation steps is as below:

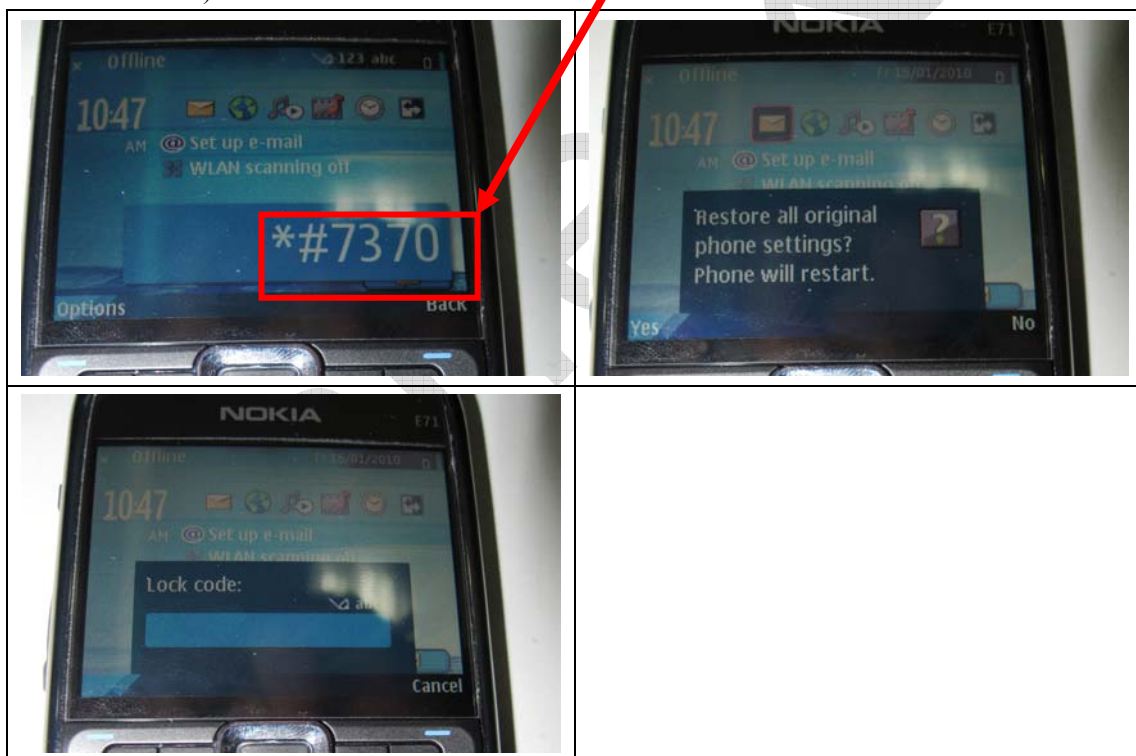

- a) Installing Nokia PC suite on PC.
  - i. Nokia PC suite (software) is in CD of Mobile phone. It is best that the firmware is upper than V7.1.26. (Like the firmware is Nokia\_PC\_Suite\_7\_1\_40\_1\_eng\_web.exe. ). You can install the step to step, when PC restart.

ii. Format Nokia Mobile Phone.

- 1) Backup you Names book and other important data first
- 2) Format mobile phone. Input “**\*#7370#**” → select “OK “ → input lock code ( default: 12345) → select “OK “
- 3) Mobile Phone restart.

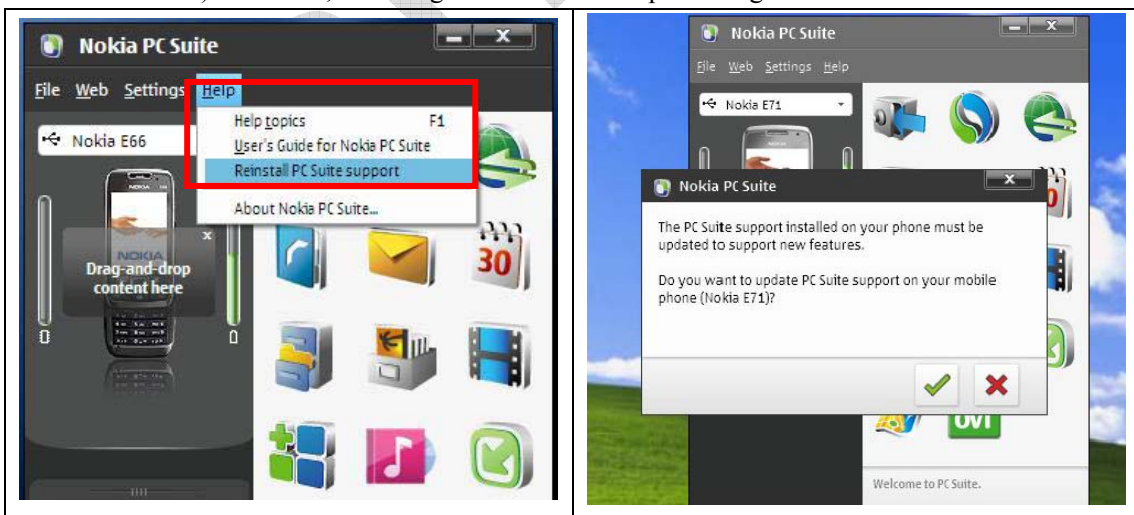

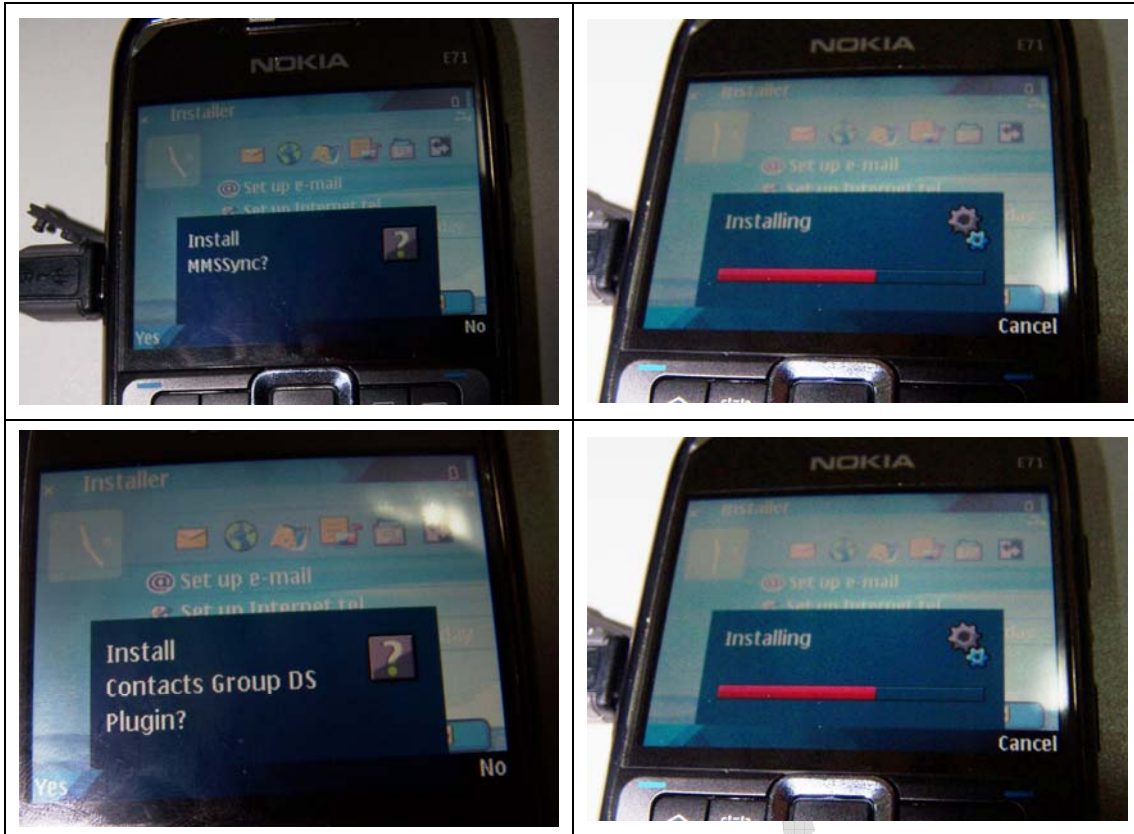

iii. Installing patches, there are “ MMSSync“ and ”Contacts Group DS Plugin“ from Nokia PC Suite.

- 1) Mobile connect PC via USB cable, and select “PC Suite” on mobile phone.
- 2) Run Nokia PC suite on PC, and Nokia PC Suite will identify the mobile phone. (like the right picture as below, it is Nokia E71. )

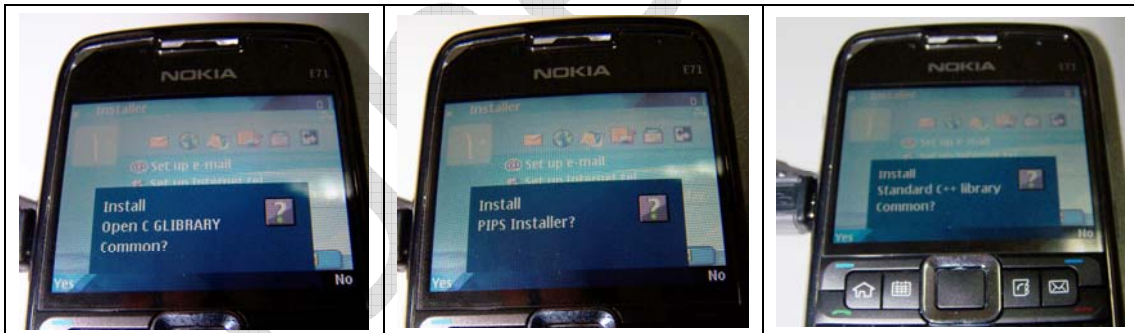

- 3) Installing two patches, Select “Help” → “Reinstall PC Suite support”.
- 4) First, installin “ MMSSync “.
- 5) Second, installing ” Contacts Group DS Plugin “.

- iv. Installing the three patches again. They are glib.sis, pips\_nokia\_1\_3\_SS.sisad and stdcpp.sis.

- v. OK, you can install MMS
